ČSN 73 0810 Fire protection of buildings - General requirements
ČSN EN 1363-1 Fire resistance tests - Part 1: General requirements
ČSN EN 1634-1+A1 Fire resistance and smoke control tests for door and shutter assemblies, openable windows and elements of building hardware - Part 1: Fire resistance test for door and shutter assemblies and openable windows

Fire classification approval consists of 13 pages.

Copies in total: 2
Copy number: 1

The document may not be reproduced other than in its entirety without the written consent of the processor.

7 VALIDITY OF FIRE CLASSIFICATION APPROVAL

This fire classification certificate is valid until **2024-12-22**, provided that there are no changes to the product and / or legal and technical regulations applicable to the product.

The extension of this document is conditioned by testing the required minimum dimensions separately for the required types of access covers (see chap. 3.3).

The client may request the issuing organization to review the effect of the changes on the validity of the classification.

This Approval is valid only as a whole; each page has to be provided with the identification number and page number of the total number of pages. This Approval does not substitute either the type of approval or the certification of products.
